EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ashey I. Pezzner on 2/8/10.

Cancel claims 1-2, 7-9, and 12.

The application has been amended as follows:

In claim 4, step d), line 1, delete "up";

line 2, delete "from".

In claim 6, line 2, delete "to the surface", and insert --to a surface--;

line 3, delete "the" before "surfaces", and after "not" (second instance), insert --to be coated--.

The following is an examiner's statement of reasons for allowance: claims 4-6 are allowed over the prior art of record. Reasons for allowance are indicated in the record. The best references are GB A-2340112, and 7,252,876, discussed in the record, none of these patents teach how to make the membrane including the washing step after the coating/ heating, and before the calcination step, and the combination with rate of heating and steps of heating in the calcination step (d). Patent '876 teaches the membrane coating composition or specific zeolite material and its composition ratio, however, the process of making is different.
